

. . . the automated solution  
for precision color  
measurements

More than ever, customers expect the color of their images to be right

**The Single Solution for All  
Your Color Measurement Needs**

**Automated x/y  
Measurement of Charts**

Easy and quick measurements,  
with fewer manipulation errors  
and less training costs.

**Automatic Calibration**

Eliminates inaccurate  
measurement results due to  
incorrect manual calibration.

**Chart Feed Detection**

Charts are formatted with special  
control bars at each end. This  
allows iCColor to read charts in
